Capstone One-Pager — CampusCart

MVP checklist for CampusCart (learners).

Title

CampusCart — College E-Commerce & Booking Portal

CampusCart is the college storefront; it uses the same catalog / cart / order patterns as **Swiggy**. Batch alts: MediBook Clinic → **Apollo Hospitals**, teller portal → **HDFC Bank**.

Stack

Django 5.x · MySQL · HTML/CSS/JS · GitHub · (stretch) DRF + React

MVP features

1. Register / login / logout
2. Catalog list + detail + search
3. Cart + place order
4. Order history
5. Admin catalog & order management
6. Responsive UI + validation
7. Deployed demo + README

Schema (text ER)

```
Category 1—* Product
User 1—* Order 1—* OrderItem *—1 Product
```

UI pages

Home · Product detail · Cart/Checkout · Orders · Login/Register · Admin/Staff

GitHub milestones

M0 Repo → M1 Auth shell → M2 Models/Admin → M3 Orders → M4 Deploy → M5 API/React (opt) → M6 Defense

Defense (10 min)

Problem → Demo → Schema → Hardest bug → Next feature
