04 — Collections, Exceptions, I/O

File	Focus	Calendar
01_Collections.md	`ArrayList` / `List`, `HashSet` / `Set`, `HashMap` / `Map`	S37–S40
02_Exception_Handling.md	`try` / `catch` / `finally`, `throw`, custom exceptions, try-with-resources (`Scanner`)	S41–S42
03_File_Handling.md	`java.nio` / streams, CSV/text, try-with-resources on files	S43

Lab kits: 12_collections_inventory (S37–S40) · 13_safe_input_exceptions (S41–S42) · 14_expense_files (S43)

Authored: Collections (`01`) + Exception Handling (`02`) + File Handling (`03`).

From Exceptions onward, core path may `throw` / `try` / `catch` / try-with-resources. File Handling adds `Path` / `Files`, text + simple CSV append, and `IOException` on files. No Spring. No Lombok. No JDBC.
