File	Focus	Calendar
01_JDBC_CRUD.md	Connection, `PreparedStatement`, CRUD	S55–S58

Lab kit: 16_jdbc_library_crud (S55–S58)

Authored: JDBC CRUD (`01`). Same *ideas* as the Python FS database-programming bridge; Java uses JDBC + `PreparedStatement` `?` (not `mysql.connector` / `%s` / Django). After required `MYSQL/` labs; **before** Spring / JPA. try-with-resources for `Connection`. No string-concat SQL. No Spring Boot. No Lombok. No `DataSource` / Hikari as required. Secrets: `.env.example` (never commit passwords). `application.yml` is Spring — not this module.
