Biweekly Assessments (Graded)

Purpose: One graded check every **2 weeks** covering topics taught in that window — instead of an Assessment section inside every module.

Source of truth: this folder + Session Calendar.
Papers live only here; modules do **not** contain Biweekly Assessment sections.

How papers work

1. After every even week (Weeks 2, 4, … 20), complete the matching `BW##_….md` paper (homework or Friday wrap-up).
2. You receive the paper only — not `*_KEY.md`.
3. Marking uses the matching key (kept private).

Cadence

ID	After week	Sessions	Paper
----	----------	----------	----------
BW01	2	S01–10	BW01_Weeks_01_02_Foundations_Setup.md
BW02	4	S11–20	BW02_Weeks_03_04_Flow_Strings_Arrays.md
BW03	6	S21–30	BW03_Weeks_05_06_Methods_OOP_Part1.md
BW04	8	S31–40	BW04_Weeks_07_08_OOP_Collections.md
BW05	10	S41–50	BW05_Weeks_09_10_Exceptions_Files_Git_MySQL.md
BW06	12	S51–60	BW06_Weeks_11_12_SQL_JDBC_HTML.md
BW07	14	S61–70	BW07_Weeks_13_14_Frontend_Spring_Core.md
BW08	16	S71–80	BW08_Weeks_15_16_JPA_Security_Labs.md
BW09	18	S81–90	BW09_Weeks_17_18_Capstone_React.md
BW10	20	S91–100	BW10_Weeks_19_20_Testing_Placement.md

Shape (every paper): 12 MCQs + 2 coding tasks + 1 short answer (≈30 marks).

Coding constraints must match what was taught in that window (e.g. BW01: linear `main` only — no `if` / loops / extra methods).

Modules keep Interview Q&A for oral practice only.

Authored: BW01 (Weeks 1–2), BW02 (Weeks 3–4), BW03 (Weeks 5–6), BW04 (Weeks 7–8), BW05 (Weeks 9–10), and BW06 (Weeks 11–12). BW07–BW10 filenames stay reserved until those fortnights are taught.
