Biweekly Assessments (Graded)

Purpose: One graded check every **2 weeks** covering topics taught in that window — instead of an Assessment section inside every module.

Source of truth: this folder + Session Calendar.
Papers live only here; modules do **not** contain Biweekly Assessment sections.

How papers work

1. After every even week (Weeks 2, 4, … 20), complete the matching `BW##_….md` paper (homework or Friday wrap-up).
2. You receive the paper only — not `*_KEY.md`.
3. Marking uses the matching key (kept private).

Cadence

ID	After week	Sessions	Paper
BW01	2	S01–10	BW01_Weeks_01_02_Foundations_Setup.md
BW02	4	S11–20	BW02_Weeks_03_04_Flow_Strings_Lists.md
BW03	6	S21–30	BW03_Weeks_05_06_Collections_Functions.md
BW04	8	S31–40	BW04_Weeks_07_08_Advanced_OOP_Exceptions.md
BW05	10	S41–50	BW05_Weeks_09_10_Files_Git_MySQL.md
BW06	12	S51–60	BW06_Weeks_11_12_SQL_Frontend.md
BW07	14	S61–70	BW07_Weeks_13_14_JS_Django_Core.md
BW08	16	S71–80	BW08_Weeks_15_16_Auth_Deploy_Capstone.md
BW09	18	S81–90	BW09_Weeks_17_18_APIs_React.md
BW10	20	S91–100	BW10_Weeks_19_20_Testing_Placement.md

Shape (every paper): 12 MCQs + 2 coding tasks + 1 short answer (≈30 marks).

Modules keep Interview Q&A for oral practice only.
