Kasi Yedumati · Full Stack Training

Git labs

Shared kits for Python FS and Java FS. Session calendar: Week 9 (S44–S45).

Kit	When	Ticket
01_git_portfolio_hygiene	After Session 2 / S45	Fix `.gitignore` + README
02_git_desk_incidents	After Session 4	Ignore, conflict, stash

`solution/` is trainer reference. Student packs exclude it.

Program folders keep a pointer at `PYTHON/15_Lab_Assets/19_git_portfolio_hygiene/` and `JAVA/15_Lab_Assets/15_git_portfolio_hygiene/` so old kit numbers still resolve.
