Biweekly Assessment BW02 — Weeks 3–4

Sessions covered: S11–20
Topics: if/elif/else, for/while, break/continue, menus, strings, lists, marks manager
Timebox: 45–60 minutes (homework or Friday of the even week).
Rules: Closed notes unless your trainer allows open notes. No copying.
Coding constraint: Loops and lists OK. No `def` yet (Functions start Week 6).

A. Multiple Choice (12)

Circle the best option.

1. `elif` means:
   a) else if
   b) end if
   c) error if
   d) empty if
2. `range(1, 5)` yields:
   a) 1 2 3 4
   b) 0 1 2 3 4
   c) 5 4 3 2 1
   d) 1 2 3 4 5
3. `break` in a loop:
   a) Restarts Python
   b) Deletes variables
   c) Skips one iteration
   d) Exits the loop immediately
4. `continue` in a loop:
   a) Creates a new loop
   b) Exits the program
   c) Skips the rest of this iteration
   d) Pauses forever
5. A `while True` menu needs:
   a) No exit path
   b) A `break` (or return later) when user quits
   c) Only `for`
   d) Only `print`
6. Strings are:
   a) Immutable
   b) Always integers
   c) Only uppercase
   d) Mutable
7. `"Hello"[1:4]` is:
   a) ello
   b) H
   c) Hel
   d) ell

8. Lists use which brackets?
   a) <>
   b) ()
   c) {}
   d) []
9. `marks.append(90)`:
   a) Removes 90
   b) Adds 90 at the end
   c) Sorts the list
   d) Clears the list
10. Empty list average should:
    a) Be guarded (message / skip)
    b) Always be 100
    c) Crash intentionally in production
    d) Divide by zero quietly
11. Nested `if` means:
    a) Only loops
    b) Only strings
    c) if inside another if
    d) Two files
12. `" Hi ".strip()` returns:
    a) `" Hi"`
    b) `" Hi "`
    c) `"Hi"`
    d) `"Hi "`

B. Coding (2)

1. Write a mini **HDFC Bank** ATM menu (balance starts 1000): options Balance / Deposit / Withdraw / Quit. Block overdraft. Use `while` / `if` only — **no** `def`.

```
# your code
```

2. Keep a list of marks. Menu: add mark (0–100), list, average (safe if empty), toppers (≥90), quit. No `def`.

```
# your code
```

C. Short answer (1)

When do you choose `for` vs `while`? Give one example of each from a student-portal style app.

(Write 3–6 sentences.)
