Kasi Yedumati · Full Stack Training

Ticket: Student Marks Manager (CLI)

Customer: Class mentor

Need: Keep marks; add, list, average, toppers (≥90).

Teaching-order: `int[]` + `count` + loops. **No** `ArrayList`. No extra methods.

Starter

Build the menu in `starter/MarksManager.java`.

Broken

Empty average crash / toppers bugs in `broken/`.

Done when

- [ ] Menu works for add/list/avg/toppers/quit
- [ ] Empty list average prints a safe message (no crash)
