Kasi Yedumati · Full Stack Training

Ticket: Student Marks Manager (CLI)

Customer: Class mentor
Need: Keep a list of marks; add, list, average, toppers (≥90).

Starter

Build the menu in `starter/marks_manager.py` (lists + loops — no `def` yet).

Broken

Empty average and toppers / remove bugs in `broken/`.

Done when

- [ ] Menu works for add/list/avg/toppers
- [ ] Empty list average prints a safe message (no crash)
