Kasi Yedumati · Full Stack Training

Git and GitHub modules moved

Git / GitHub now live in the **shared** folder:

→ `../../GIT/`

Python Full Stack still schedules these topics in the Session Calendar. Open the modules under `GIT/`, not from here.

Start: Session 1 — First GitHub push
Course index: `GIT/01_Git_and_GitHub.md` (5 sessions, ~6 hours)
Labs: `GIT/labs/`
