Business Requirements Document (BRD)

Project: AcmeHR – Employee Management System

Version: 1.1
Prepared By: Product Owner
Date: June 2026

---

1. Executive Summary

AcmeHR is a cloud-based Employee Management System designed to digitize and automate Human Resource operations across an organization. The platform will serve as the central source of truth for employee information, organizational hierarchy, attendance, leave management, onboarding, performance tracking, and employee lifecycle management.

The system aims to reduce manual HR efforts, improve employee experience, ensure compliance, and provide management with real-time workforce insights.

---

2. Business Objectives

Primary Objectives

- Centralize all employee information
- Digitize HR operations
- Improve workforce visibility
- Reduce manual paperwork
- Improve employee self-service capabilities
- Enhance compliance and auditability
- Enable data-driven HR decisions

Success Metrics

KPI	Target
HR administrative effort	Reduce by 60%
Employee onboarding time	Reduce by 75%
Leave processing time	Reduce by 80%
Employee profile completeness	>95%
Employee self-service adoption	>90%
Payroll data accuracy	>99.5%

---

3. Scope

In Scope

Employee Management

- Employee master records
- Employee lifecycle management
- Employee documents
- Employee directory

Organization Management

- Departments
- Business units
- Locations
- Reporting hierarchy

Attendance Management

- Daily attendance
- Shift assignments
- Time tracking
- Attendance reports

Leave Management

- Leave requests
- Leave approvals
- Leave balances
- Leave policies

Onboarding & Offboarding

- Employee onboarding workflows
- Document collection
- Asset allocation
- Exit management

Performance Management

- Goal setting
- KPI management
- Performance reviews
- Feedback cycles

Employee Self-Service (ESS)

- Profile updates
- Leave applications
- Attendance viewing
- Document downloads

Reporting & Analytics

- HR dashboards
- Workforce analytics
- Compliance reports

Out of Scope (Phase 1)

- Payroll processing
- Recruitment ATS
- Learning Management System
- Benefits Administration
- Expense Management

4. Stakeholders

Role	Responsibility
HR Manager	Workforce administration
HR Executive	Daily HR operations
Employee	Self-service activities
Manager	Team management
Department Head	Department oversight
Finance Team	Payroll integrations
IT Administrator	System administration
Executive Leadership	Reporting and analytics

5. User Roles

System Administrator

Permissions:

- Full system access
- Configure organization
- Manage users
- Configure workflows
- Manage integrations

HR Administrator

Permissions:

- Manage employee records
- Manage onboarding

- Manage leave policies
- Generate reports

Manager

Permissions:

- View team members
- Approve leave requests
- Review attendance
- Conduct performance reviews

Employee

Permissions:

- View profile
- Update personal information
- Apply for leave
- Access documents
- View attendance

---

6. Business Processes

Employee Lifecycle

1. Candidate hired
2. Employee record created
3. Onboarding initiated
4. Documents collected
5. Assets assigned
6. Employee activated
7. Employee lifecycle managed
8. Exit initiated
9. Assets returned
10. Employee archived

Leave Workflow

1. Employee submits leave request
2. Manager receives notification
3. Manager approves/rejects
4. Leave balance updated
5. Employee notified

Attendance Workflow

1. Employee checks in
2. Attendance recorded
3. Shift rules validated
4. Exceptions identified
5. Reports generated

Performance Workflow

1. Goals assigned
2. Employee updates progress
3. Manager reviews
4. Feedback submitted
5. Rating finalized

---

7. Functional Requirements

Module 1: Employee Management

Features

Employee Profile

Store:

- Employee ID
- Name

- Gender
- Date of Birth
- Contact Information
- Address
- Emergency Contact
- Employment Details
- Reporting Manager
- Department
- Designation

Employee Documents

Manage:

- ID Proof
- Address Proof
- Educational Certificates
- Employment Agreements
- Tax Documents

Employee Directory

Capabilities:

- Search employees
- Filter employees
- Organization chart view
- Contact directory

Module 2: Organization Management

Features

Departments

- Create department
- Edit department
- Archive department

Designations

- Create designation
- Manage reporting structures

Locations

- Multiple office locations
- Region mapping

Organization Hierarchy

- Reporting relationships
- Department hierarchy

Module 3: Attendance Management

Features

Attendance Tracking

- Check-in
- Check-out
- Break tracking

Shift Management

- Fixed shifts
- Rotational shifts
- Flexible shifts

Attendance Reports

- Daily reports
- Monthly reports
- Exception reports

Module 4: Leave Management

Leave Types

- Casual Leave
- Sick Leave
- Earned Leave
- Maternity Leave
- Paternity Leave
- Loss of Pay

Features

Leave Application

- Apply leave
- Cancel leave
- Edit pending request

Leave Approval

- Single-level approval
- Multi-level approval

Leave Balances

- Accrual rules
- Carry forward
- Expiry rules

Module 5: Onboarding Management

Features

Pre-Joining

- Offer acceptance
- Document submission

Joining

- Employee creation
- Account provisioning
- Orientation checklist

Onboarding Tasks

- HR tasks
- IT tasks
- Manager tasks

Module 6: Offboarding Management

Features

Exit Initiation

- Resignation
- Termination

Exit Checklist

- Asset return
- Knowledge transfer
- Clearance process

Exit Documentation

- Exit interview
- Final settlement handoff

Module 7: Performance Management

Features

Goal Management

- Annual goals
- Quarterly goals

- KPI tracking

Reviews

- Self-review
- Manager review
- 360-degree feedback

Performance Ratings

- Rating scales
- Calibration workflows

Module 8: Employee Self-Service

Features

Profile Management

- Update personal details
- Upload documents

Leave Services

- Apply leave
- View balances

Attendance Services

- View attendance
- Correct attendance requests

Document Center

- Download documents
- Access policies

Module 9: Reporting & Analytics

Standard Reports

Workforce Reports

- Headcount
- Attrition
- Diversity

Attendance Reports

- Absenteeism
- Late arrivals

Leave Reports

- Leave utilization
- Leave liability

Performance Reports

- Goal achievement
- Rating distribution

---

8. Non-Functional Requirements

Performance

- Support 10,000+ employees
- Page response < 2 seconds
- API response < 500 ms

Availability

- 99.9% uptime

Scalability

- Horizontal scaling support
- Multi-region deployment readiness

Security

- Role-based access control
- MFA support
- Data encryption at rest
- Data encryption in transit

Auditability

- Complete audit trail
- Change history
- User activity logs

---

9. Compliance Requirements

- GDPR readiness
- ISO 27001 alignment
- Labor law compliance
- Data retention policies
- Consent management

---

10. Integrations

Identity Providers

- Microsoft Entra ID
- Google Workspace
- SAML Providers

Payroll Systems

- ADP
- Workday
- SAP SuccessFactors

Communication Platforms

- Microsoft Teams

- Slack
- Email

Attendance Devices

- Biometric devices
- RFID devices
- Mobile attendance

---

11. Assumptions

- Employees have corporate email IDs
- Internet access available
- Managers actively participate in workflows
- HR policies are documented

---

12. Risks

Risk	Impact
Incomplete employee data	High
Poor user adoption	High
Integration failures	Medium
Compliance changes	Medium
Data migration issues	High

---

13. Future Roadmap

Phase 2

- Payroll Management
- Recruitment ATS

- Learning Management
- Employee Engagement

Phase 3

- AI HR Assistant
- Predictive Attrition Analytics
- Skill Gap Analysis
- Career Path Planning
- Workforce Planning

---

14. Acceptance Criteria

The system shall be accepted when:

- Employee records can be managed end-to-end
- Leave management workflows function correctly
- Attendance tracking is operational
- Reporting dashboards are available
- Security and audit controls are validated
- Integration framework is operational
- UAT signoff is completed

---

15. UI Wireframes

Added in version 1.1 (October 2026). These screens show the layout, content and navigation of the Phase 1 employee self-service and HR views. They are a static HTML and CSS reference built in the AcmeHR training course; all names and figures are sample data, and the final visual design may change.

Every screen works from a 320 px phone to a desktop, can be used with the keyboard alone, and shows status with words as well as colour. Each screen below is shown at 1024 px (desktop) and 375 px (phone) wide.

15.0 Screen inventory

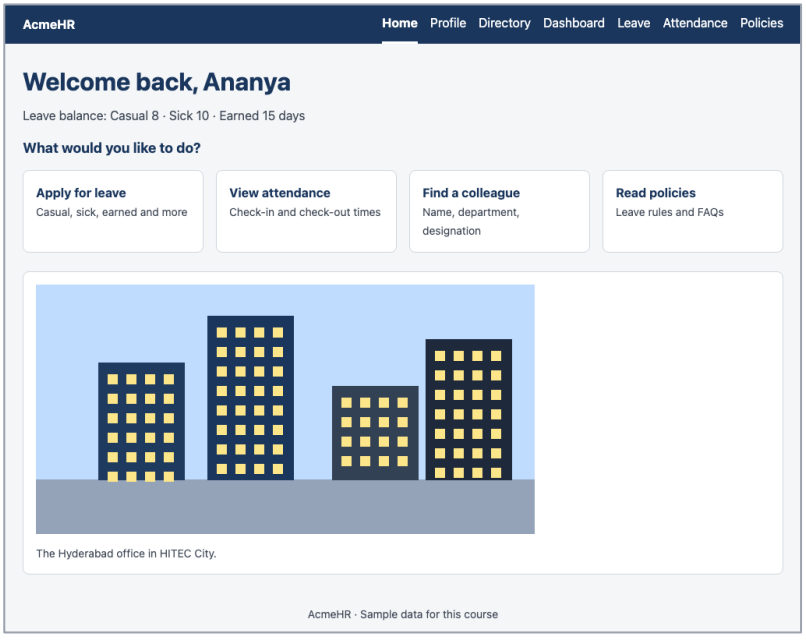

Screen	BRD module and features	Primary role	Page
Home	Module 8 — Employee Self-Service	Employee	index.html
Employee profile	Module 1 — Employee Profile; Module 8 — Profile Management	Employee	profile.html
Employee directory	Module 1 — Employee Directory	Employee	directory.html
HR dashboard	Module 9 — Reporting & Analytics (HR dashboards); Module 4 — Leave Approval	HR Administrator, Manager	dashboard.html
Apply for leave	Module 4 — Leave Application; Module 8 — Leave Services	Employee	apply-leave.html
Daily attendance report	Module 3 — Attendance Reports (daily); Module 9 — Late arrivals	Manager, HR Administrator	attendance.html
Leave policy	Module 8 — Document Center (access policies); Module 4 — Leave Policies	Employee	policies/leave.html

15.1 Home

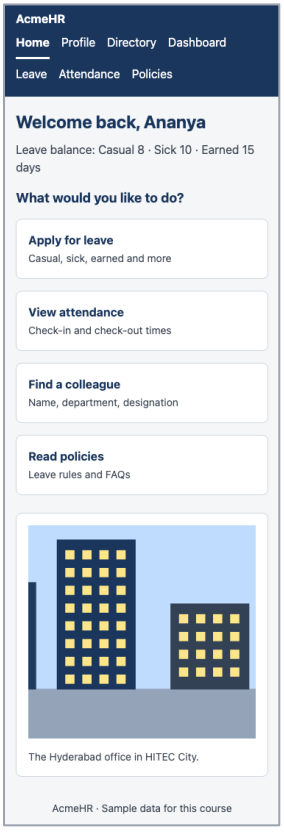

BRD coverage: Module 8 — Employee Self-Service

Primary role: Employee

Purpose: Landing page after sign-in. Shows the leave balance and quick links to the most common self-service tasks; the main navigation reaches every Phase 1 screen.

Desktop, 1024 px

Phone, 375 px

Shown: Leave balance by type; quick links to apply for leave, view attendance, find a colleague and read policies; main navigation with the current page marked.

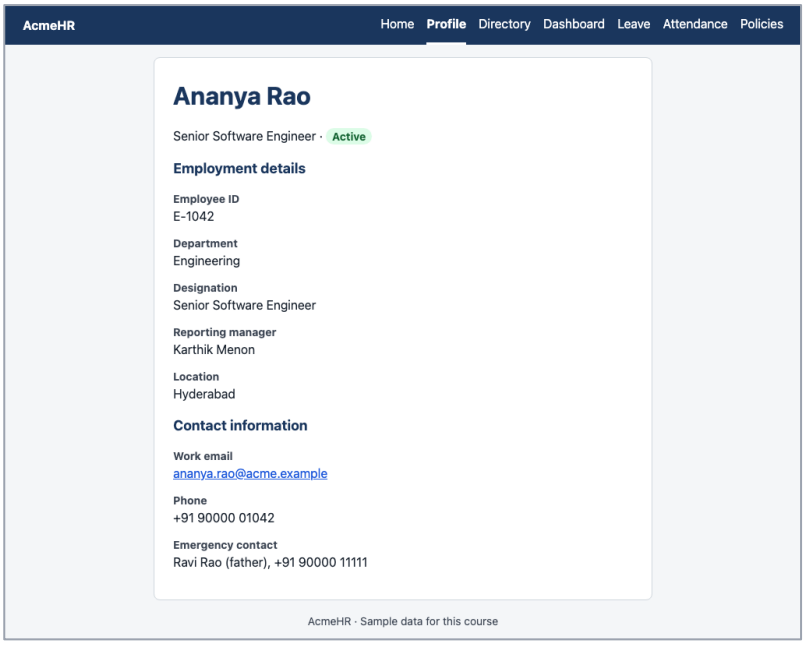

Not yet shown (BRD scope for later screens): Notifications (BRD leave workflow: “Employee notified”), announcements.

15.2 Employee profile

BRD coverage: Module 1 — Employee Profile; Module 8 — Profile Management

Primary role: Employee

Purpose: The employee's own profile, read-only.

Desktop, 1024 px

Phone, 375 px

Shown: Employee ID, name, designation, department, reporting manager, location, work email, phone, emergency contact, employment status.

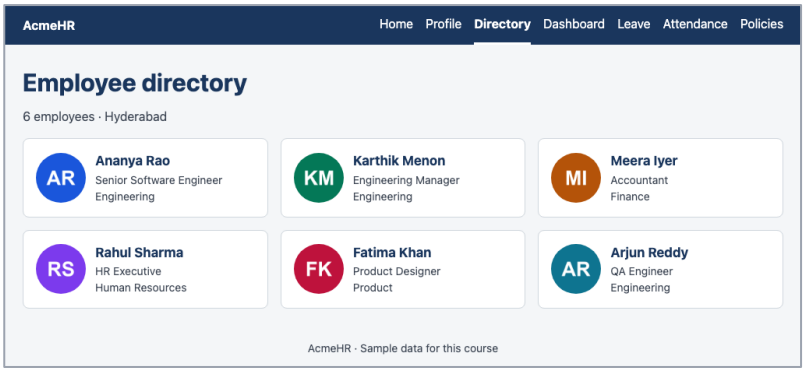

Not yet shown (BRD scope for later screens): Gender, date of birth, address, employment history, employee documents, "Update personal details" and "Upload documents" actions.

15.3 Employee directory

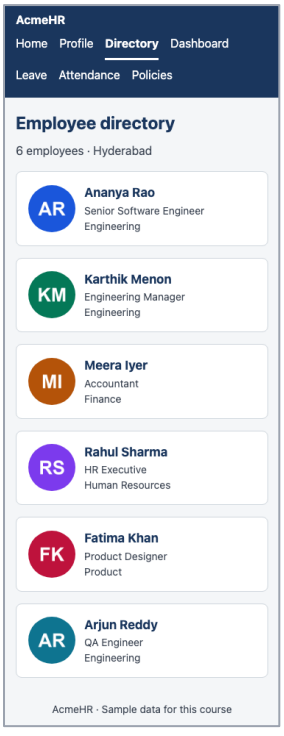

BRD coverage: Module 1 — Employee Directory

Primary role: Employee

Purpose: Contact directory of colleagues as cards.

Desktop, 1024 px

Phone, 375 px

Shown: Photo, name, designation and department for each employee; cards reflow from one column on a phone to three on a desktop.

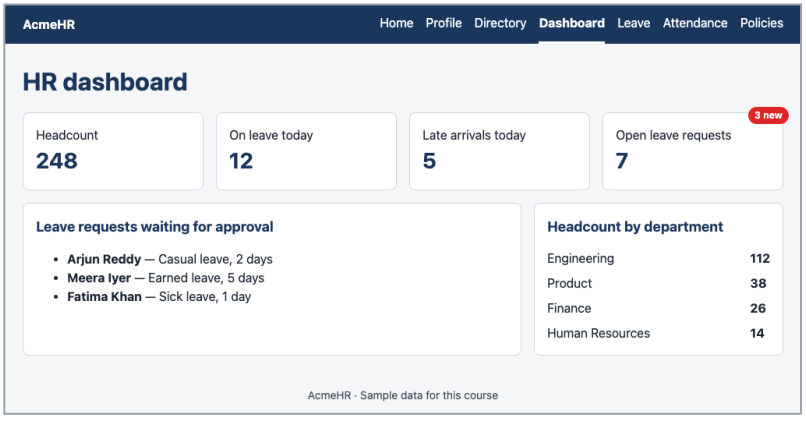

Not yet shown (BRD scope for later screens): Search employees, filter employees, organisation chart view.

15.4 HR dashboard

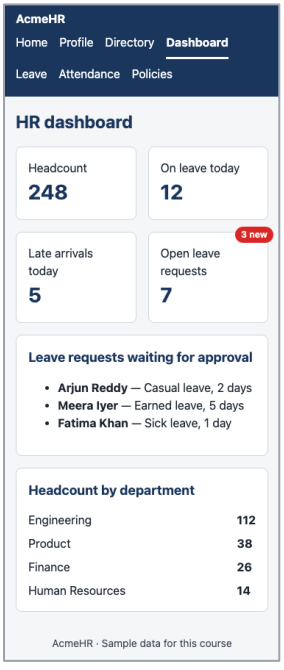

BRD coverage: Module 9 — Reporting & Analytics (HR dashboards); Module 4 — Leave Approval

Primary role: HR Administrator, Manager

Purpose: Today's workforce figures and the leave requests waiting for approval.

Desktop, 1024 px

Phone, 375 px

Shown: Headcount, employees on leave today, late arrivals today, open leave requests (with a "new" badge), pending requests list, headcount by department.

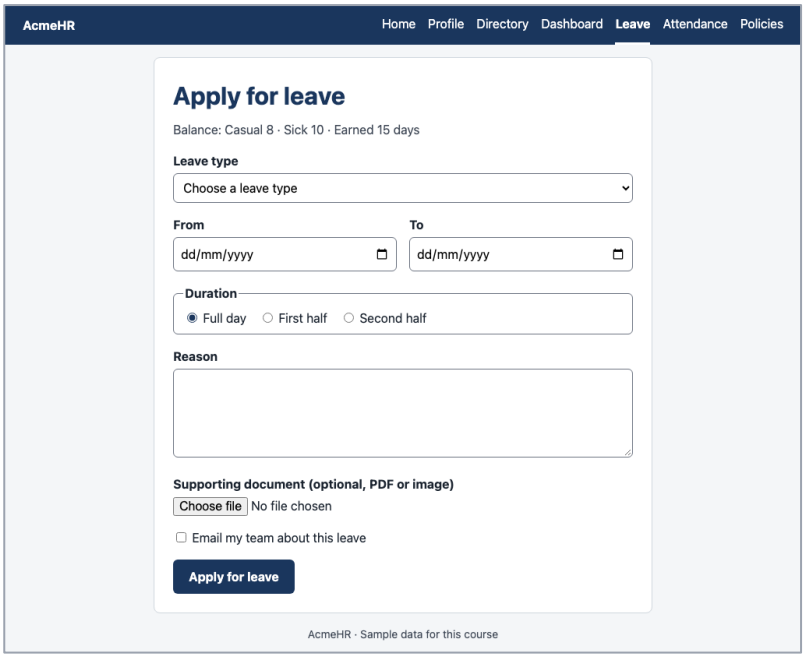

Not yet shown (BRD scope for later screens): Approve / reject actions, attrition and diversity reports, leave utilisation and leave liability reports.

15.5 Apply for leave

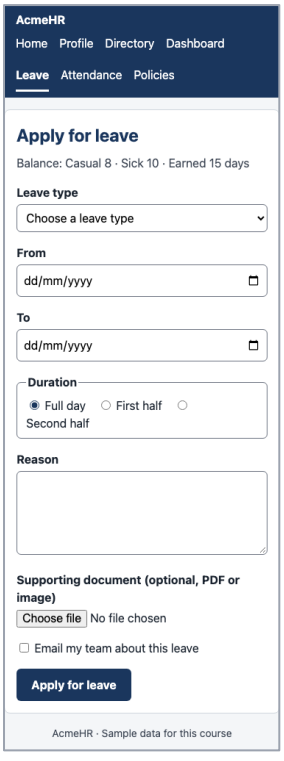

BRD coverage: Module 4 — Leave Application; Module 8 — Leave Services

Primary role: Employee

Purpose: Leave application form.

Desktop, 1024 px

Phone, 375 px

Shown: Current balance; the six BRD leave types (Casual, Sick, Earned, Maternity, Paternity, Loss of Pay); from and to dates; full or half day; reason; optional supporting document; option to email the team; validation of required fields.

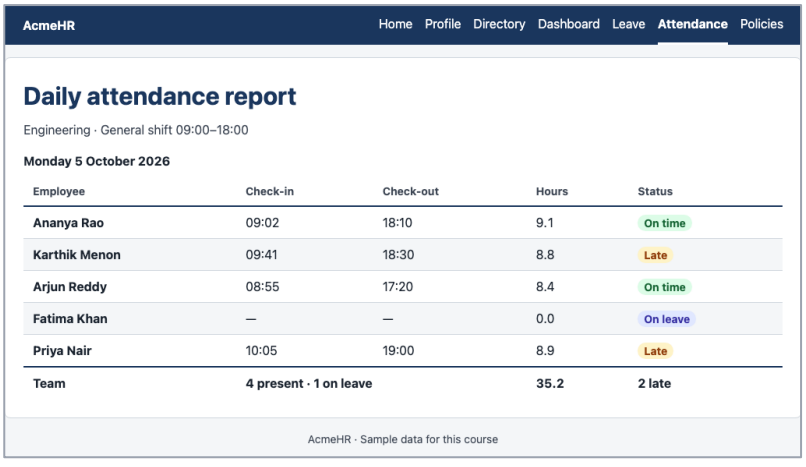

Not yet shown (BRD scope for later screens): Cancel leave, edit a pending request, single- or multi-level approval routing, server-side error states.

15.6 Daily attendance report

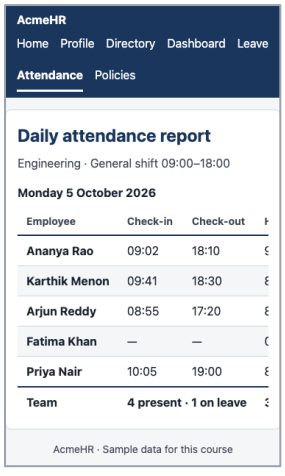

BRD coverage: Module 3 — Attendance Reports (daily); Module 9 — Late arrivals

Primary role: Manager, HR Administrator

Purpose: One day's attendance for a team.

Desktop, 1024 px

Phone, 375 px

Shown: Check-in and check-out per employee, hours worked, status (On time, Late, On leave) shown as words and colour, team totals. On a phone only the table scrolls sideways.

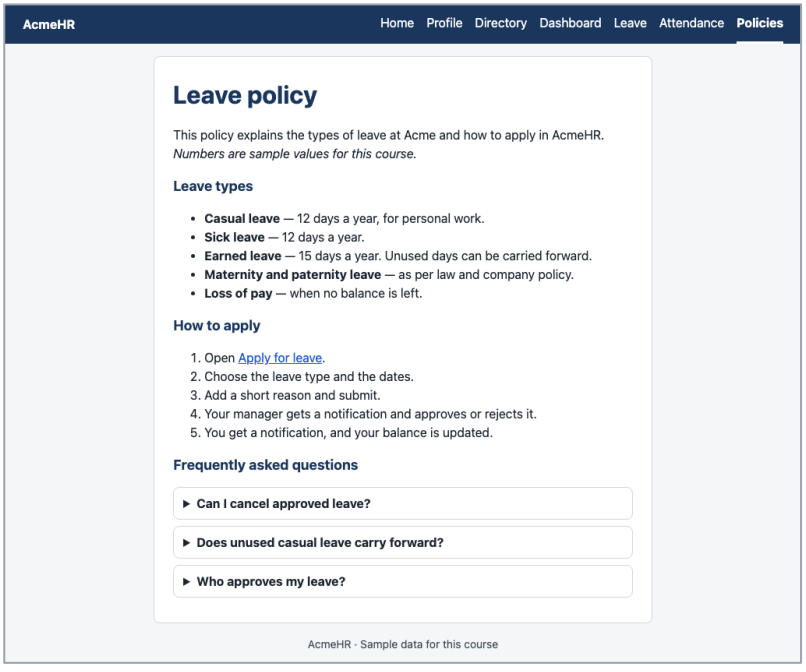

Not yet shown (BRD scope for later screens): Monthly and exception reports, shift assignments, break tracking, attendance correction requests.

15.7 Leave policy

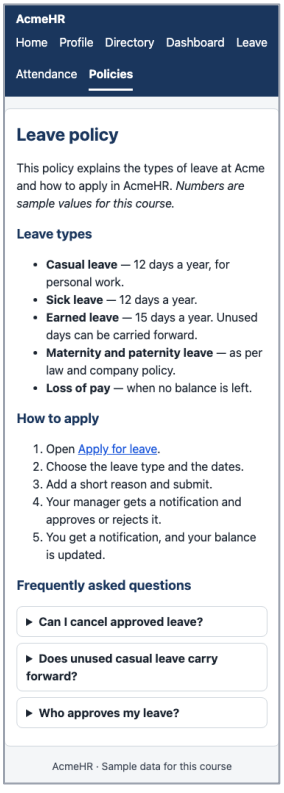

BRD coverage: Module 8 — Document Center (access policies); Module 4 — Leave Policies

Primary role: Employee

Purpose: Company leave policy with frequently asked questions.

Desktop, 1024 px

Phone, 375 px

Shown: Leave types and entitlements (sample values), how to apply (the BRD leave workflow), FAQs that expand and collapse.

Not yet shown (BRD scope for later screens): Document downloads, policy versions and acknowledgement.
